Chief Nursing Officer

A career in general nursing at the University Medical Center

Come and contribute towards the work of our nursing team

Unser Wissen für Ihre Gesundheit

Chief Nursing Officer

A career in general nursing at the University Medical Center

Dear reader,

I am pleased that you are interested in a career in nursing at University Medical Center Mainz. "Our expertise for your health" is our maxim and we apply our special medical knowledge and skills to the full when treating the injuries and illnesses of our patients.

If you take up a nursing post at the University Medical Center you will find a wide spectrum of different options for professional and personal advancement in the modern, future-orientated environment of a university-based organisation dedicated to exploring the cutting edge of medicine and nursing.

As Chief Nursing Officer, I feel particularly proud when I see how our nursing personnel carry out their duties with enthusiasm and a very high degree of professionalism. This ensures that we are able to provide needs-based patient care of the required high quality. With our patients in mind, we continually strive to enhance our specialist nursing expertise to make sure we can provide them with the best possible level of care.

The members of our multicultural nursing team are always considerate and supportive when dealing with each other, a factor that guarantees efficient, interdisciplinary and professional collaboration.

Nurses working at University Medical Center Mainz are not only in an interesting and diverse occupation, they also have excellent opportunities for progressing both personally and professionally.

Come and join us and contribute your skills and dedication to the work of our nursing team - we look forward to receiving your application!

Best regards

Evelyn Möhlenkamp
Chief Nursing Officer

Mainz University Medical Center

With its roughly 7500 personnel working in a vast range of different occupational groups, Mainz University Medical Center is one of the major employers in the Rhine-Main metropolitan region. The University Medical Center consists of more than 60 clinics, institutes and departments that collaborate across the disciplinary boundaries. Not only do we minister to the needs of more than 300,000 patients annually, but we are also a major medical research and training institute. As a comprehensive care centre, we are able to provide our personnel with a wide spectrum of different options for their professional and personal advancement. We have a total of 1593 managed beds and treat some 62,800 hospitalised patients and 241,500 outpatients annually.

What we offer our nursing personnel

- Challenging activities with scope for individual adaptation to your personal requirements
- The opportunity to work in a friendly and supportive team
- Interesting and varied opportunities to work in all medical disciplines
- Specialised, structured induction training
- State-of-the-art equipment and facilities
- Interdisciplinary, patient-orientated collaboration
- Job shadowing in your future work environment
- Attractive rates of remuneration (gross pay at least €2349,43/month) with pension scheme and fringe benefits
- Excellent further training and continuing education options
- Full-time and part-time employment options
- German language training to the B2 level, integration support, help in finding accommodation and dealing with authorities and much more...
