

EndNote X6 - Angabe von PMID in der Literaturangabe nach „Vancouver“ Style entfernen:

1. EndNote Menüleiste: **Edit** -> **Output Styles** -> **Open Style Manager**
2. “Vancouver” öffnen und unter **File** -> **Save As ...** eine Kopie speichern
3. Vancouver Copy modifizieren: **Bibliography** -> **Templates** öffnen
4. Im Typ **Journal Article** den markierten Bereich entfernen (s. Graphik) und mit Klick auf das Kreuz oben rechts in der Menüleiste speichern.
5. Beim Zitieren den Style: **Vancouver Copy** auswählen

The screenshot shows the EndNote X6 Output Style Manager interface. On the left is a tree view of style categories, and on the right is a list of templates with their corresponding code snippets. The 'Journal Article' template is selected and highlighted in grey. Within its code, the fields 'PubMed-PMID' and 'Pubmed-Central-PMCID' are highlighted in blue, indicating they are the focus of the modification described in the text.
