

The UCT Mainz presents

# 1st Mini-Symposium in Translational Oncology (MiTraC)

## A View to a Kill – Target Discovery in Cancer Research

**April 12th · 2019 | 10:30 am – 4:00 pm**

**University Medical Center Mainz | Building 102 · Lecture Hall**

### Session 1: Biomarkers & Molecular Oncology

**Tobias Sjöblom · Uppsala:**

Cancer Biomarkers: how should we turn defeat to victory?

**Chunaram Choudhary · Copenhagen:**

DNA damage repair network analysis reveals shieldin as a key regulator of NHEJ and PARP inhibitor sensitivity.

**Jens Siveke · Essen:**

Target Evaluation in Pancreatic Cancer.

**More info & registration (free of charge)**

until 5th of April 2019 at [inmelzer@uni-mainz.de](mailto:inmelzer@uni-mainz.de)

### Session 2: Immuno-Oncology & Microenvironment

**Michele Mishto · London:**

Is it worth to search among spliced peptides to develop anti-cancer immunotherapies?

**Kathrin Renner-Sattler · Regensburg:**

Metabolic checkpoints in the tumor microenvironment.

**Olivier Demaria · Marseille:**

Next generation immunotherapies: NK cells and other targets.

**Incl. Lunch, Speakers' Corner & Get Together/Network Café**

With kind support from

UNIVERSITÄTS**medizin.**

**uct** | Universitäres Centrum für  
Tumorerkrankungen MAINZ
