

# CTH Translational Seminar 2022/23

Thursdays 1 p.m. – via MS Teams

*Short talks* (indicated in *Italic*) should not exceed 15+5 min.

PhD students should present a progress report of their project(s).

**Educational lectures** (indicated in **bold**) should not exceed 25+5 min.

Post-Docs and PIs give educational lectures. The extended time slot offers the opportunity to present state-of-the-art research in their field. The comprehensive overview can be followed by own research data.

<b>Date / Speaker / Chair</b>	<b>Title</b>
<b>08.09.2022</b>	
<b>Stavros Konstantinides</b>	<b>Next-Generation Anticoagulants, Focus on Coagulation Factor XI: Latest Data</b>
<b>15.09.2022</b>	
<i>Gaukhar Baidildinova</i>	<i>Plasma protein signatures for high on-treatment platelet reactivity to aspirin and clopidogrel in peripheral artery disease</i>
<b>Claudine Graf</b> Chair: Kerstin Jurk + Wolfram Ruf	<b>Regulation of Tumor Immune Evasion by Coagulation Signaling</b>
<b>22.09.2022</b>	
<i>Pengyu Zhang</i>	<i>cancelled</i>
<b>Lukas Hobohm</b> Chair: Claudine Graf	<b>Pulmonary embolism response teams (PERT) and its impact on the outcome of patients with acute PE</b>
<b>39.09.2022</b>	
<i>Rocio Vakic Diaz</i>	<i>The search for new players in thrombin generation using a proteomic approach</i>
<b>Wolfram Ruf</b> Chair: Jamie Nourse	<b>Coagulation and viral infections</b>
<b>06.10.2022</b>	
<i>Sana'a Khraisat</i>	<i>The role of TERRA in ROS-induced telomere shortening in heart failure</i>
<b>Klytaimnistra Kiouptsi</b> Chair: Moritz Brandt + Cathrin Nourse	<b>Microbiota, Toll-like receptor 4 and thrombosis</b>
<b>13.10.2022</b>	
<i>Ronald Saraswat</i>	<i>Role of endothelial extracellular vesicles in the propagation of pro-senescent signal - An exploration</i>
<b>Michael Molitor</b> Chair: Katrin Schäfer	<b>The role of acute mental stress on progression and development of cardiovascular disease</b>
<b>22.10. + 27.10.2022</b>	
<b>School Holidays</b>	<b>No Seminar</b>
<b>03.11.2022</b>	
<i>Jonathan Mandel</i>	<i>cancelled</i>
<b>Elisa Araldi</b> Chair: Carsten Deppermann	<b>Computational Systems Medicine approaches in diabetes and heart failure</b>

10.11.2022

Lab Safety Instructions  
(German)

MANDATORY FOR ALL STAFF WORKING IN 708 please contact Sabine  
Reyda ([reyda@uni-mainz.de](mailto:reyda@uni-mainz.de)) for further information

17.11.2022

*Claudia Schönichen*

*TNF $\alpha$ -induced endothelial dysregulation enhances platelet activation under  
shear and in stasis: a multi-omics approach*

Luca Valerio

Post-pulmonary embolism impairment and post-pulmonary embolism  
syndrome: the insights from the FOCUS study

Chair: Kerstin Jurk and Stavros  
Konstantinides

24.11.2022

(English)

MANDATORY FOR ALL STAFF WORKING IN 708 please contact Sabine  
Reyda ([reyda@uni-mainz.de](mailto:reyda@uni-mainz.de)) for further information

01.12.2022

Matthias Schwabe + Matthias  
Götz

Introduction into Patents and Technology Transfer

Chair: Wolfram Ruf

08.12.2022

*Akhil Konkoth*

*Coagulolytic balance of different subsets of microvesicles*

Chair: Romaric Lacroix

15.12.2022 – 05.01.2023 – Christmas Break

Christmas Break

12.01.2023

*Konstantinos Zifkos*
