

**Research Scientist
(Postdoctoral Fellow)**

We are seeking a Postdoctoral Researcher in the Department of Dermatology and Center of Thrombosis and Hemostasis at the University Medical Center Mainz, Germany to pursue research in tissue-resident memory T-cells in inflamed human and murine veins. The project aims to elucidate T_{RM} formation/maintenance conditions and role in disease progression and tests the possibilities of therapeutic manipulation.

Please see recent publications and the following webpage for descriptions of research in the Becker Lab:

https://www.researchgate.net/profile/Christian_Becker3

Requirements:

- A recent Ph.D. in Immunology or Vascular Biology
- Peer-reviewed publications
- Experience with cellular immunology, preferably T cells, molecular biology and mouse models of disease.
- Excellent written and oral communication skills in English.
- Must be willing and able to handle mice.
- the candidate should identify her/himself as teamplayer!

The position will remain open until a suitable candidate is identified.

Send cover letter, CV and contact information for 3 references to:

Christian Becker, Ph.D., christian.becker@unimedizin-mainz.de

Salary and benefits are according to a public service position in Germany (TV-H **E 13**, 100 %). We support women and strongly encourage them to apply. In areas where women are underrepresented, female applicants will be preferred in case of equal qualifications. Application and interview costs can not be refunded.
