

Prof. Dr. med.
Michael Weller

Professor Michael Weller has been Chairman of the Department of Neurology at the University Hospital Zurich, Switzerland, since 2008. He qualified in medicine in Cologne, Germany, after completing his thesis on proliferative disorders of the retina. A postdoctoral fellowship at the Department of Clinical Immunology, University Hospital Zurich, Switzerland, followed where he identified death receptor targeting as a potential treatment strategy for malignant gliomas. In 2005, he was appointed Chairman of the Department of General Neurology at the University Hospital Tübingen, Germany, where he had previously received his education in clinical neurology.

Prof. Weller has received several awards in recognition of his contributions to cancer research, including the German Cancer Award in 2007. He served as Chairman of the Neuro-Oncology Group of the German Cancer Society from 2001-2008. He is the Chairman of the German Glioma Network of the German Cancer Council, joined the Executive Board of the European Association for Neuro-Oncology (EANO) in 2010 and was elected President of EANO for 2014-2016. He hosted the World Federation of Neuro-Oncology Societies (WFNOS) Meeting in May 2017 in Zurich, Switzerland, and was the Chairman of the Brain Tumor Group of the European Organization for Research and Treatment of Cancer (EORTC) (2015-2021).

Prof. Weller was involved in major practice-changing clinical trials including the registration trial for temozolomide in glioblastoma and served as PI on the NOA-03, NOA-04, NOA-08 and G-PCNSL-SG-1 trials in Germany and the DIRECTOR and ARTE trials in Switzerland. Dr Weller has a research focus on the immunology of gliomas and serves as the PI of the phase III immunotherapy trials ACT IV (Rindopepimut) and STING (ICT-107). He is also a member of the editorial boards of the Journal of Neurochemistry, Journal of Neuro-Oncology, Brain, Glia and Neuro-Oncology, and he was the Associate Editor Europe of Neuro-Oncology from 2006-2013.

„Emerging treatment strategies in glioblastoma“

Vortrag am 17.07.2026 von 16.00 Uhr – 17.00 Uhr im Hörsaal 102 in der Frauenklinik der Unimedizin
