

**Workshop proposal: Andreas W. Sailer (DMP), Paul Smith (ATI)**

**From bench to bed site: Translating discoveries to novel treatments for neuroinflammation**

**Where:** Novartis Campus Basel, Switzerland

**When:** June 26-27 2014

**Who:** 12 Graduate and post graduate students from the Marie Curie Initial training network (MCITN) (Neurokine) plus 12 Novartis associates interested in neuroinflammation.

**Pre course training:** internet module is being discussed with EO

### **Seminars**

**Welcome to Novartis**

Dhaval Patel

**Preclinical research**

Paul Smith,  
Anis Mir, Frank Kolbinger

Topics: basic biology, cellular models, in vivo models...

### **Imaging**

Labeling and tracking of immune cells

Rainer Kneuer

Imaging technologies

Martin Rausch

Clinical Imaging

Paul Maguire

**Biomarker development**

Frank Dahlke

Topics: What is a biomarker....

### **Translational Medicine**

Peter Gergely, Florian Muellershausen

Stephen Oliver

Topics: Proof of concept, indication expansion....

### **Clinical Sciences**

Clinical Trials

Eric Wallstroem, Klaus Hinterding

Clinical Aspects of MS

Jens Kuhle (University of Basel)

### **Patent / Regulatory / Marketing**
