

IRTG Colloquium 2019/2020
(Progress Reports and PI Lectures)
Each Friday, 9.15-10.00

Seminar room 3.105, Paul Klein Center for Immune Intervention (Building 308A) / Via Video Conference

Date	Doctoral Candidate/PI	Subject
20.09.2019	Sven Pagel (TP10)	
27.09.2019	Marie Kruchem (TP08)	A non-small cell lung cancer (NSCLC) mouse model for improved preclinical validation of immune therapies
18.10.2019	Julia Schmiedeke (TP11)	Activation mechanisms of mast cells by murine cytomegalovirus
25.10.2019	Alexander Lang (TP06)	Antitumor efficacy of adoptively transferred optimized tumor-reactive T-lymphocytes
08.11.2019	Tobias Bexte (MD, TP12)	Generation of CD19-CAR NK cells against acute lymphoblastic leukemia – comparison of a viral and non-viral method
15.11.2019	Prof. Dr. Rafaela Holtappels (TP14)	Coincident airway exposure to low-potency allergen and cytomegalovirus sensitizes for allergic airway disease
29.11.2019	Dr. Christian Albrecht (TPZ01)	Integrated OMICS and Bioinformatics Platform
	Sara Becker (TP11)	Immune evasion of mCMV
06.12.2019	Yagmur Bülbül (TP06)	Characterization of MDSCs in multiple myeloma
13.12.2019	Dr. Sebastian Kreiter (TP17)	RNA cancer vaccines & combining them with “standard of care” therapies
10.01. 2020	Vinzenz Särchen (TP12)	Smac mimetics and RMS/NK cells

17.01. 2020	Prof. Dr. Detlef Schuppan (TP08)	Immunology of Fibrosis and Cancer, Wounds that Do not Heal
24.01. 2020	Dr. Niels Lemmermann (TP11)	Immune evasion mechanisms of cytomegaloviruses
07.02. 2020	Christian Gosmann (TP08)	Characterization and modulation of M1/M2/TAM
14.02. 2020	L. Bitar / S. Keller (TP09)	The role of EGFL7 in immune evasion by malignant glioma
21.02. 2020	Julia Campe (TP12)	The role of CD4 T cells in GVHD and GvL
06.03. 2020	Darko Castven (TP07)	Sequential (epi-)genetic alterations in the hepatic microenvironment are key drivers of liver cancer development and progression
13.03. 2020	Calvin Kurz (MD, TP 14)	Role of β -catenin signaling in antigen presenting cells in shaping intestinal immune homeostasis
Break due to the Corona Pandemic - Restart via video conference:		
29.05.2020	Ikra Gizem Yildiz (TP17)	Neo-epitope specific T-cells
05.06.2020	Natalia Truong-Andrievici (TP01)	Tumor immune evasion via acidosis-dependent polarization of TAMS
26.06.2020	Catharina Majer (TP04)	SAMHD1
	Kristin Grunz (TP02)	TLRs in macrophages and monocytes / migration
03.07.2020	Julia Schäfer (TP07)	Role of HCC related epigenetic alterations driving immune evasion
10.07.2020	Carina Santos (TP10)	Platelet tumor signature
17.07.2020	Sara Hamdan (TP14)	Immunomodulation of cytomegalovirus latency & reactivation by T-cells and dendritic cells
