

IRTG Colloquium 2019
(Progress Reports and PI Lectures)
Each Friday, 9.15-10.00

Seminar room 3.105, Paul Klein Center for Immune Intervention (Building 308A)

Date	Doctoral Candidate/PI	Subject
11.01.2019	Prof. Dr. Tobias Bopp	Acidification-dependent tumor immune evasion
25.01.2019	Alexander Lang	Antitumor efficacy of adoptively transferred optimized tumor-reactive T-lymphocytes
01.02.2019	Julia Schmiedeke	Activation mechanisms of mast cells by murine cytomegalovirus
08.02.2019	Yagmur Bülbül	Characterization of MDSCs in multiple myeloma
15.02.2019	Sara Becker	Immune evasion of mCMV
01.03.2019	Vinzenz Särchen	Smac mimetics and RMS/NK cells
08.03.2019	Christian Gosmann	Characterization and modulation of M1/M2/TAM
15.03.2019	Lynn Bitar Stefanie Keller	The role of EGFL7 in immune evasion by malignant glioma
22.03.2019	Nadine Kamenjarin	Tissue resident memory reactivation/DCs in skin
29.03.2019	Ikra Gizem Yildiz	Neo-epitope specific T-cells
05.04.2019	Asmaa Kaddouri	Molecular mechanisms of the origin and function of ILT3 ⁺ regulatory T cells

12.04.2019	Natalia Truong-Andrievici	Tumor immune evasion via acidosis-dependent polarization of TAMs
26.04.2019	Kristin Grunz	TLRs in macrophages and monocytes / migration
03.05.2019	Catharina Majer	SAMHD1
10.05.2019	Sara Hamdan	Immunomodulation of cytomegalovirus latency & reactivation by T-cells and dendritic cells
17.05.2019	Carina Santos	Platelet tumor signature
24.05.2019	Julia Schäfer	Role of HCC related epigenetic alterations driving immune evasion
07.06.2019	Josephin Schwarz	Immunomodulation of CMV latency and reactivation by T-cells and DCs
14.06.2019	Lisa Marie Reindl	Smac mimetics and RMS/NK cells
28.06.2019	Jennifer Pott	Impact of EPCR expressed by myeloid cells on tumor growth
