

GABAergic System Diversity and NEURODEVELOPMENTAL DISORDERS

Invitation to the fifth series of lectures
Wed. September 20th, 2023 at 2-5 pm

Hosts: UKF: Prof. C. Freitag, Prof. C. Ecker; Prof. A. Chiocchetti
JGU: Prof. M. Schmeißer, Prof. D. Krueger-Burg

**Developmental trajectories for sensory phenotypes and
molecular targets in rodent models of synaptic dysfunction
in autism spectrum disorders**

MARTIEN KAS

Groningen Institute for Evolutionary Life Sciences,
University of Groningen, the Netherlands

Clinical trials in ASD: AIMS-2 Trials as a model

CELSO ARANGO

Institute of Psychiatry and Mental Health. Hospital General Universitario Gregorio
Marañón. Professor of Psychiatry, Universidad Complutense, Madrid, Spain

**Studying the brain through the lens of
neurodevelopmental disorders**

GAIA NOVARINO

Institute of Science and Technology Austria,
Genetic and Molecular Basis of Neurodevelopmental Disorders
