

Center for Thrombosis and Hemostasis

5th Anniversary Symposium "Thrombosis and Inflammation"

Tuesday, October 6th 2015

9:00 a.m. – 8:00 p.m.

9:00 Welcome

Ulrich Förstermann, Dean UMC Mainz

9:15 Pathogenesis of Thrombosis

Chair: Bettina Kemkes-Matthes, Giessen
Karl Lackner, Mainz

Pieter Reitsma, Leiden
Genetics of Venous Thrombosis: an Update

Tilman Hackeng, Maastricht
Platelet TFPI saves the Day

Bernhard Nieswandt, Würzburg
Platelets in Acute Stroke: novel Insights

Saskia Middeldorp, Amsterdam
Women's unmet needs in Thrombosis Research

11:00 Coffee Break

11:30 Keynote Lecture

Chair: Thomas Münzel, Mainz
Ulrich Walter, Mainz

Frits Rosendaal, Leiden
Future Perspective of Thrombosis and Hemostasis Research

12:30 Lunch

13:30 Platelets

Chair: Rüdiger Scharf, Düsseldorf
Philipp Wild, Mainz

Steve P. Watson, Birmingham
Novel Agonists of Platelet ITAM Receptors

Albert Sickmann, Dortmund
Past Achievements and Future Challenges of Platelet Proteomics and Phosphoproteomics

Johann Heemskerk, Maastricht
Complex Platelet Phenotyping

Meinrad Gawaz, Tübingen
Platelets in Inflammation

15:15 Keynote Lecture

Chair: Klaus Preissner, Giessen
Bernhard Lämmle, Mainz

Charles T. Esmon, Oklahoma City
The role of the Protein C Pathway and Extracellular Histones in Thrombosis, Organ Failure and Death

16:15 Coffee Break

16:45 Vascular Biology

Chair: Ralf Brandes, Frankfurt
Katrin Schäfer, Mainz

Steffen Massberg, München
Immunothrombosis

Philip Wenzel, Mainz
FXI in Hypertension

Thomas Renné, Hamburg/Stockholm
Contact Pathway

Christoph Reinhardt, Mainz
Gut Microbiota and von Willebrand Factor in Arterial Platelet Adhesion

18:15 Concluding Remarks

18:30 CTH 5th Anniversary Reception

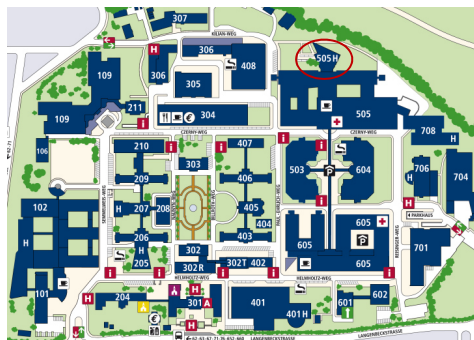

Registration

Please register on
symposium.cth-mainz.de
until September 20th 2015.

Contact

Dr. Hanne Schoenen
06131 – 17 8056
Hanne.Schoenen@unimedizin.de

Symposium venue

Lecture Hall 505
University Medical Center (UMC)
of the Johannes Gutenberg-University Mainz
Langenbeckstr. 1, 55131 Mainz

CTH Overview

The *Center for Thrombosis and Hemostasis Mainz* (CTH) was established in 2010 as an Integrated Research and Treatment Center (IFB) funded by the German Ministry for Education and Research (BMBF). The CTH provides a unique interdisciplinary environment that facilitates basic research, innovative patient care and the development of new diagnostic approaches and therapies. The CTH fosters translational research from bedside-to-bench and bench-to-bedside in the field of thrombosis and hemostasis and offers a range of career development opportunities for physician scientists and biomedical researchers.

The further development of the CTH was approved for a second funding period starting in the fall of 2015. On this occasion, the Symposium on "Thrombosis and Inflammation" will highlight recent advances and future challenges in the field and bring together a panel of internationally recognized leaders in the field for a day of lectures and discussions.
